TEST SUMMARY - 77008 SERIES

77008 SERIES INFORMATION

The 77008 Series is a collection of single point binding posts, using a 8mm stainless steel post. There are colour and post length differences, but the core 77008 model does not change.

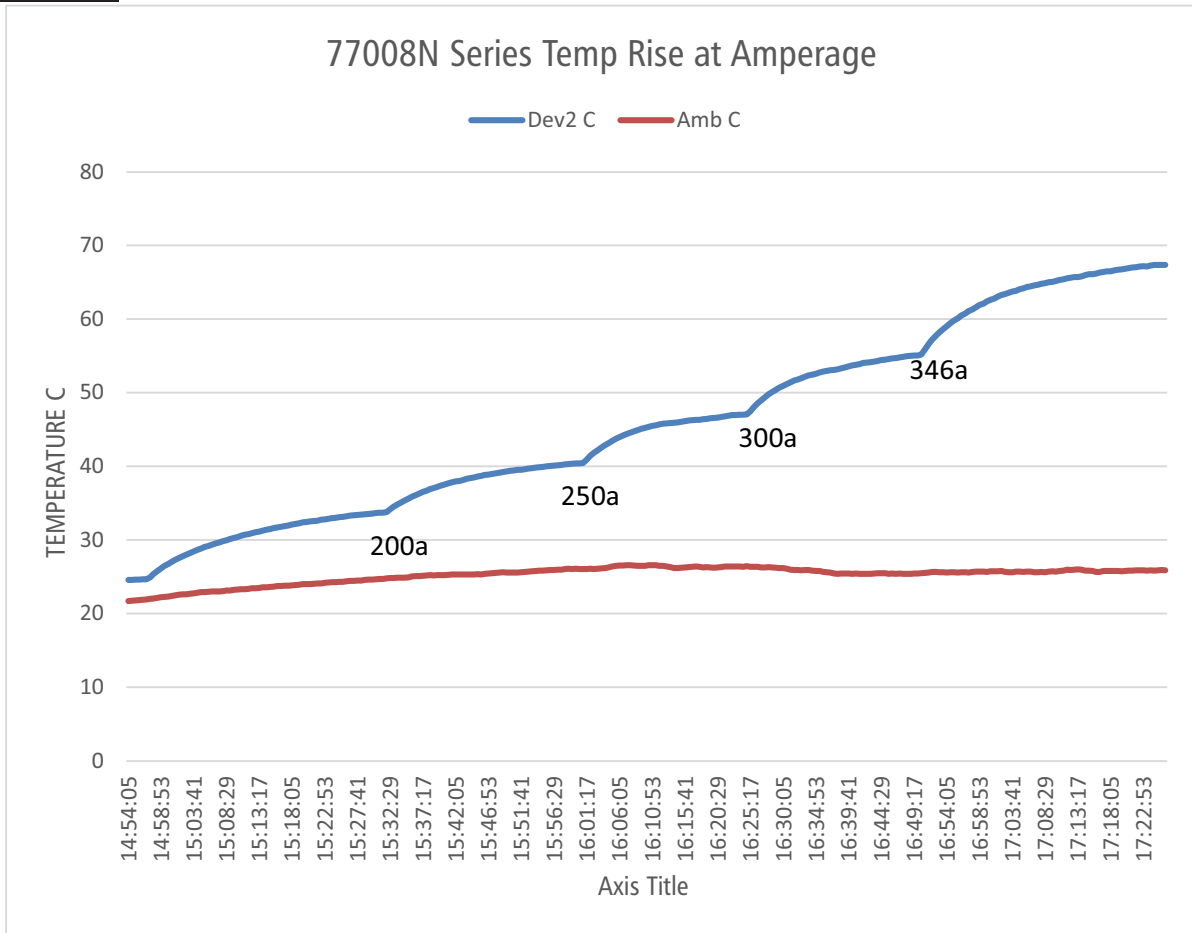

TESTING EQUIPMENT

Electrical Testing Unit	-	Elektro-Automatik B-20080-340
Data Capture Device	-	DataQ DI-4718-B
Cables	-	4/0 guage
Test Run Date	-	Jan 22, 2026

TEST RESULTS

TESTING SUMMARY:

As indicated in the testing graph above, at 250a, temperature in the junction does not exceed 50c. Testing was ran at 300a, and the device maintained a safe operating temperature under 60c.

* NOTE * As this is a binding post, temperature building is developed by connection points, not the 77008 binding post. Application terminals are the current carrying portion.
