## TEST SUMMARY - 77037 SERIES

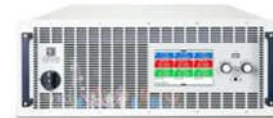

### 77037 SERIES INFORMATION

The 77037 Series is a collection of single point binding posts, using a 3/8" stainless steel post. There are colour and post length differences, but the core 77037 model does not change.

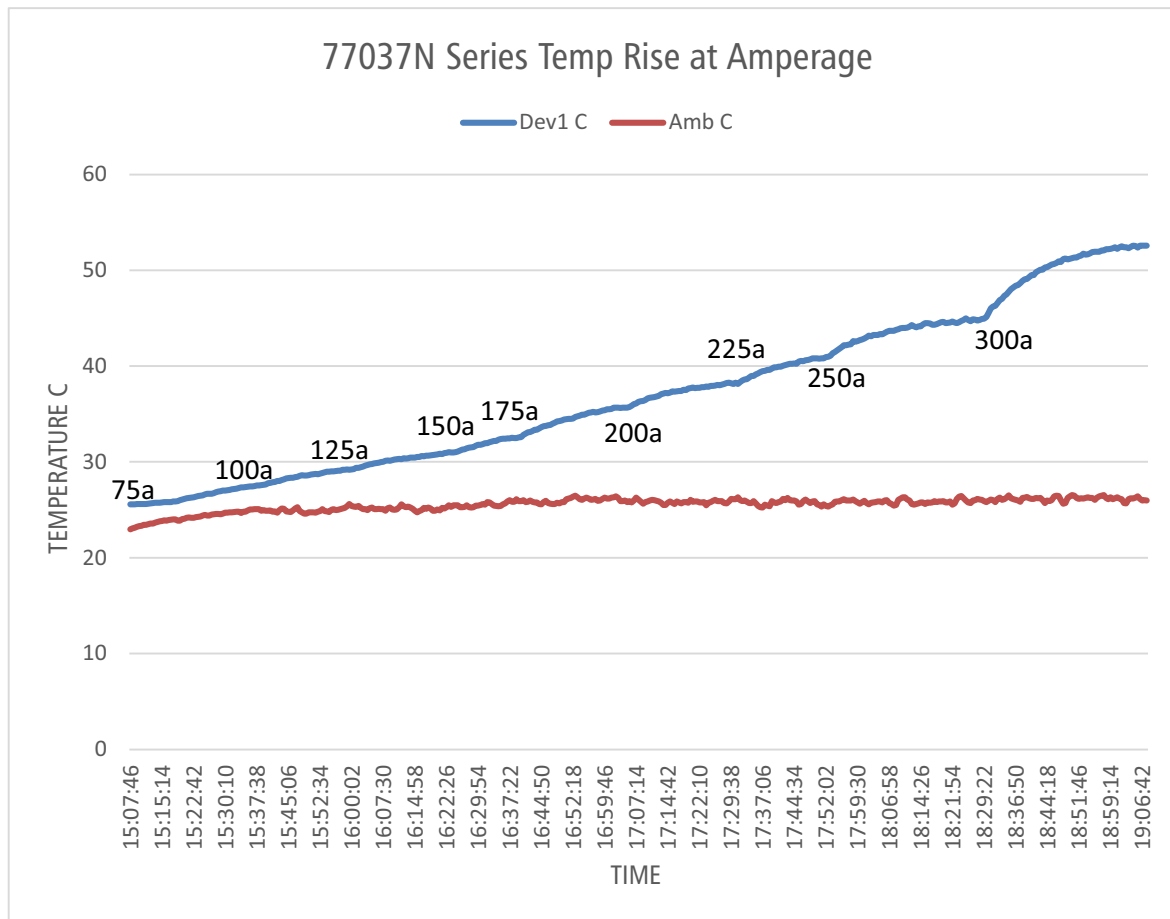

### TESTING EQUIPMENT

Electrical Testing Unit - Elektro-Automatik B-20080-340  
Data Capture Device - DataQ DI-4718-B  
Cables - 4/0 guage  
Test Run Date - Jan 21, 2026

### TEST RESULTS

### TESTING SUMMARY:

As indicated in the testing graph above, at 250a, temperature in the junction does not exceed 50c. Testing was ran at 300a, and the device maintained a safe operating temperature under 60c.

\* NOTE \* As this is a binding post, temperature building is developed by connection points, not the 77037 binding post. Application terminals are the current carrying portion.
